March 18, 2020

Dear Families and Guardians,

At Perry Local School District, the safety and wellbeing of our students, families and staff members is our top priority. While the government has mandated the remote learning of students, it was left up to the districts to determine how their buildings would be utilized. As such, we have begun operating with limited staff on-site at all of our buildings and there will be no staff available during Spring Break, beginning March 21 through March 29 however, student lunches will be distributed as planned. Please continue to ask if you have questions. If you are unable to reach someone at the building, please leave a message and we will get back to you as soon as possible.

After Spring Break, remote learning will commence. Remote learning starts on Monday, March 30. Our families can find everything they need to know about our remote learning program at: bit.ly/remoteperry. We will continue to operate buildings with limited staff on site during remote learning. Please be patient as we continue to address any concerns and create the best educational experience for our students.

As we move forward, the Perry Local School District will continue to follow the direction of the Governor's Office as well as federal, state and local health organizations.

This is a difficult time for all of us, but we have a strong and dedicated community in Perry. As such, we encourage our families and staff members to continue to support local businesses as much as possible to help ease the strain put on our favorite local establishments. The District intends to include a resource page that will connect area businesses to the community. Our businesses have supported our booster clubs, service organizations and various families in need time and again, now it is our turn. We all need to come together and support each other. That is what will get us through this unprecedented time period.

Thank you for your cooperation, patience and understanding. We will continue to show our Perry Pride!
